Aravind Mutte

Cloud DevOps & Site Reliability Engineer

Hyderabad, India | mutthe.aravind@gmail.com | +91 98851 89951 | linkedin.com/in/aravindmutte

SUMMARY

Cloud DevOps & Site Reliability Engineer with about 2 years of professional experience across enterprise IT and independent cloud builds. MS in Computer Science (Rivier University, USA). I design infrastructure as code, automate delivery pipelines, and keep production systems observable and reliable -- currently on AWS, Azure, and GCP free-tier builds.

EXPERIENCE

Independent Cloud & Full-Stack Builder -- Self-employed * Hyderabad / Remote

2023 - Present

- Architected and shipped the Axon lead-capture API on GCP Cloud Run (TypeScript, Zod validation, reCAPTCHA Enterprise, Supabase) -- live with $0 infrastructure spend.
- Built the GradeSpot frontend (Next.js 15, Tailwind CSS v4, IBM Carbon) and this portfolio -- deployed on Vercel and GitHub Pages with GitHub Actions CI.
- Run a self-hosted Termux homelab over Tailscale plus OCI free-tier tooling -- servers, automation, monitoring.

Systems Engineer -- Infosys * Bangalore, India

Jun 2022 - Feb 2023

- Supported enterprise application environments on AWS and Linux.
- Automated routine operations with Bash scripting; worked in Git-based workflows.
- Served the full notice period -- clean exit, relievable.

Junior Developer (Offer Role) -- HCL Technologies * India

2022

- Brief tenure; moved on within the probation window.

Infrastructure Engineer -- PragmaEdge * Hyderabad, India

Mar 2021 - Mar 2022

- Trained and worked on the IBM Sterling B2B Integrator stack -- business processes, trading partners, file gateways.
- Administered Linux environments; managed secure transfers (SFTP / AS2); automated operations with Bash.

EDUCATION

MS Computer Science -- Rivier University, Nashua NH, USA

B.Tech Computer Science -- JNTU Hyderabad (CGPA 6.77/10)

CERTIFICATIONS

Google Cloud Professional Cloud Architect * Microsoft Azure AZ-900 * Linux & Shell Scripting (Udemy)

TECHNICAL SKILLS

Cloud: AWS (EKS, ECS, Lambda, CloudWatch), Azure (AKS, DevOps), GCP (Cloud Run), Oracle Cloud
IaC & Config: Terraform, CloudFormation, ARM Templates
CI/CD: Jenkins, GitHub Actions, GitLab CI, Azure DevOps, Cloud Build
Containers: Docker, Kubernetes, Helm
Languages: Python, TypeScript, JavaScript/Node.js, Bash, SQL
Observability: Prometheus, Grafana
Web: Next.js, React, Tailwind CSS, IBM Carbon, Supabase, n8n
